Fluent: Junit, Selenium

Proficient: JMH, EasyMocks, PitTest, Cucumber, JaCoCo, DBVisualizer

Database Management

Proficient: PostgreSQL, MongoDB, SpringBoot, Firestore, RESTful APIs, Postman

EXPERIENCE

Junior Software Developer Intern

03/2024 – 07/2024

InteractHealthPro 🌐

- Transitioning from Keap to Groove.cm to enhance functionality and improve operational efficiency.
- Ensure seamless conversions while meeting and exceeding company standards.
- Collaborated with team leader and incorporating rigorous feedback to optimize migration process.
- Successfully migrated all assigned websites and email sequences with a 100% acceptance rate.

Open Source Project Developer

09/2023 – 12/2023

Umple - Open Source Project 🌐

- Contributed to a software engineering project aimed at bridging the gap between modeling and coding.
- Tasked with resolving **Java** issues and implementing new features for **UMPLE** while ensuring effective version control and CI/CD pipelining.
- Submitted 6 **Pull Requests** to **GitHub** with a 92% acceptance rate; resolved extraneous bracket detection using regex; developed **Batch Scripts** for Windows development.
- Improved code quality and streamlined future development workflow.

Founder/Software Developer

04/2016 – 04/2024

HumblxMC Server 🌐

- Creating and ensuring server functionality, reliability and overall growth.
- Developed server plugins, automate deployment, establish online presence, lead the development team and enhance user engagement.
- Developed **Java** plugins with **Maven Bukkit API**, automated deployment with **Batch Scripts**, optimized the server's website with **SEO** to improve pagerank, led the team using **Trello** and **Miro**, and executed advertising campaigns achieving 465k views.
- Increased system reliability by 90%, improved pagerank from 33 to 4, effectively managed the development team, and significantly boosted server growth and user engagement.
